

SHW - 10

DHW - 20

**UNIT DESCRIPTION :**

Modular open mouth bag filler configurable for Gravity, Beld Fed, Auger Fed or Vibratory Pan Fed style machine for Packaging 10-50kg Bags with varying products with Characteristic ranging from dusty to no-free flowing at a rate upto 20 bags/minute.

**PRINCIPLE OF OPERATION :**

The SHW Series open mouth bag filler can be filled with gravity, belt or auger feeders for a wide range of product applications. Product flows by gravity from the supply hopper into the product feed inlet at the top of the Machine. The product (gravity/belt/auger) feeder conveys product into the bag which hangs from a bag filling spout with air operated clamps.

The SHW Series is an automatic gross weighing scale that simultaneously fills and weighs directly into the bag.

**APPLICATIONS :**

Rice, Sugar, Dhal, Seed, All types of free flow Granules etc.,

**TECHNICAL SPECIFICATIONS :**

Proper Application	Rice, Sugar, Dhal, Seed, Granules,
Weight Range	10-50 Kg (Open mouth Bags)
Fill Rate	1-10 / 12-20 Bags per minute (Depending on product characteristics)
Feeding	Two / Three position material Flow Gate
Bag Holding	Pneumatic Bag Clamp
Typical Scale Weight Accuracy	+/-1 0.5-1% of Target Weight
Control Air	80-120 PSI Required @ 3-6 CFM
Electrical	220/440 Volt / 3 Ph / 60 Cycle (Required for Belt Fed Scales only)
Dust Collection	250 CFM (Optional : Required dust tight units only)
Dimension	2200 x 1080 x 1200 mm (LxBxH)

**SS Automation and Packaging Machines.,**

**Office :** No:1A, Buddha 4th Street, Ramakrishnapuram,  
Ganapathy Post, Coimbatore, TN, India, Zip - 641006.

**Factory :** S/F No.110/2, Bharathi Nagar, 1st Cross,  
Ganapathy Post, Coimbatore, TN, India, Zip - 641006.
